

Northville Lodge

Incredible. That's how you'll describe the experience having spent only a few luxurious minutes in this breathtaking home! The organic finishes of slate, stone, Northern White Cedar, Alder, Cherry, brick, cast iron, and bronze make this home a masterpiece! In addition to the standard amenities and the magnificent finishes, this incredible design features curved staircases, a butler's pantry, formal study, two fireplaces, and two custom radial bay elements on the main level. A mouth-watering lower level completes the experience, offering a home theater, billiard room, gift-wrapping room, fully furnished kitchen/wet bar, and family living area. Who could ask for anything more?
