

Rocky Point Lodge

LODGE LOG. With spans of tree length Northern White Cedar tree length logs with chinking on the exterior, this lodge is fit for a king. Custom doors, hand hewn log trusses and notched eaves all create the hand crafted lodge style appeal of this custom cedar home. Extensive masonry on the exterior foundation, patio areas and deck support columns provide a very solid base and a unique design element. Inside, a roaring fireplace presents a grand gathering space, while Northern White Cedar interior tongue and groove paneling and ceiling purlins lend an airy element to the open floor plan. Lower level plan can be finished with a walk-out area for sloping property.
